A Story About the 2nd American Revolution

by The Famished Patriot

NO. 2

I Chronicles 12:32

SEPTEMBER 2019

1. UNDERSTANDING THE TIMES.

The name of this publication, *Understanding the Times*, has been chosen for a very specific reason. The phrase is rooted in one Bible verse buried in the Old Testament. This single verse briefly describes a group of men about which very little is known.

I Chronicles 12:32 brings us the men of Issachar “...who had understanding of the times, to know what Israel ought to do...” These uniquely gifted men traveled with David, the young man whom the prophet Samuel anointed to be Israel’s second king. For seven years, David, the son of Jesse, warred with Saul, the king that God had rejected for his disobedience. As this war raged on, the men of Issachar advised and counseled David.

What made the the tribe of Issachar so different from the other tribes?

Jewish tradition holds that the tribe of Issachar was gifted with an abundance of knowledge and wisdom. They understood the times in which they lived and they knew what needed to be done.

The writer of Ecclesiastes explains that eras of history are marked by certain times and seasons. The men of Issachar, expressly equipped for the time and season in which they lived, had the ability to navigate the chaos and confusion unleashed upon the struggling nation of Israel. These men gained the respect and trust of their peers.

What significance is found for us in this 3,000 year old story?

Today, our own nation is a “house divided.” As noted in our first publication, ours is a war of clashing ideologies and belief systems. Our need for understanding cannot be overstated.

We find ourselves living in a time of great uncertainty, a season of upheaval and discord. Who is telling us the truth? Who is lying? How do we navigate through the tumult and disorder?

We all need a clear understanding of the times in which we live.

2. Q ⇒ CITIZEN JOURNALISTS ARISE.

Are we living in a Post-Truth era? Are the traditional, mainstream media outlets bringing us the truth? How long have we been lied to? Where can we find the truth? Do we even care about knowing the truth? How can we understand the times if we don’t know who is telling the truth?

Why did Q show up on the scene? As noted in the first issue of *Understanding the Times*, “...Q reached out to us to lead us onto our own personal path of discovery in the face of a failing media.”

“For everything there is a season, and a time for every purpose under heaven.”

Ecclesiastes 3:1

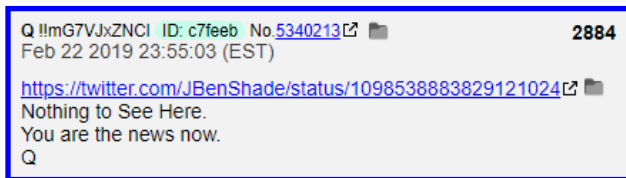

Understanding the Times has been created to assist those who seek to understand the tumultuous times in which we now live.

Q does not come right out and tell us what is happening, Q simply drops hints, clues, riddles and links which then cause us to go digging for the truth. Since journalism today is little more than a propaganda machine for those who have long controlled the narrative, the patriots must become the researchers, the journalists digging for the real story.

America has always had it's share of citizen journalists. But with the death of journalism in our time, and the arrival of Q calling upon everyday Americans to go find the truth, an army of citizen journalists has stepped up to fill the void. A list of recommended citizen journalist resources will be made available in upcoming issues.

And remember, for those who are digging for the truth and doing the work that many of the professional journalists no longer do, "you are the news now."

3. A SECOND AMERICAN REVOLUTION?

Some call our nation's current internal turmoil a "Civil War." And in many ways it is. The United States of America is presently at war with itself. At stake is the future of our long-held principles of self-government and the personal liberty and civil rights of very American. So the "Civil War" label certainly captures the essence of our struggle.

But many choose to call the current hostility a "Second American Revolution." This delineation likewise fits the bill.

Nearly 250 years ago, thirteen British colonies declared their independence from their mother country who had been increasing their taxes and placing unrealistic burdens upon them. The colonists' bold move propelled them into a war that today is known as the American Revolution.

Who are our lords today? Are they the people we elected to lead us? Or are they members of an elite club of wealthy and powerful business leaders, bankers and others of great wealth and influence who have quietly wormed their way into the highest levels of our government? Have they infiltrated and do they now control the the halls of government through blackmail, bribery and intimidation?

Do they control our schools? Our health care? Our entertainment? Our voting booths? Our social media? Our news?

Their march of control into our lives has been slow, methodical and quiet. In fact over the decades we have noticed only a granular change to our lifestyles.

So well planned have been their moves and methods that we would not likely know the depth to which we have been deceived and lulled to sleep had it not been for our friend Q.

Ladies and gentlemen, we now live in an occupied country. We the people no longer run things. Others occupying ivory towers now own our elected officials, especially the most influential ones. And together they pass laws and regulations that steal away more and more of our God-given right to self-government.

With the help of Q many of us have begun to understand how we got ourselves into this mess. Those who work with Q have formulated and are carrying out a master plan to return us to the ideas and principles that made us a great nation.

The 2nd American Revolution is well underway!

4. THE BATTLE IS OCCURRING ON SEVERAL FRONTS.

Q adherents and others who closely follow what's really going on can identify two primary battle fronts. Please note that as of the publication date, none of the people named below have been charged or found guilty of the crimes they are alleged to have committed. The primary battle fronts are:

1. **Battle Front 1: Spygate/FISAgate**, the attempt by a group of high-ranking, unelected

SPYGATE!!!

officials in our intelligence community to bring down a duly-elected president of the United States. Their sinister plot is nothing less than an attempted—and thankfully failed—coup d’etat. Major players currently under investigation include the following:

1.1 - John Brennan, former head of the CIA (under Obama). Note: Despite the attention on James Comey, John Brennan is believed to be the primary instigator behind the false narrative of Trump’s “collusion with Russia” leading to an investigation into a crime that never occurred.

1.2 - James Clapper, former Director of National Intelligence (under Obama) who abused his power by using government intelligence resources to spy on many Americans.

1.3 - James Comey, former Director of the FBI (under Obama).

1.4 - Andrew McCabe, former Director and Deputy Director of the FBI (under Obama).

1.5 - Loretta Lynch, former Attorney General of the United States (under Obama).

1.6 - Sally Yates, former Acting Attorney General, fired by President Trump for refusing to carry out his orders regarding changes to his immigration policy. Among other suspected crimes, Yates is also among several high-ranking officials who signed a bogus FISA document.

1.7 - Many more characters, too numerous to list here (including a former president), have been a part of the sinister plot to destroy the Trump presidency and will, in due course, be brought to justice.

SEX TRAFFICKING!!!

Battle Front 2: Sex Slavery. On July 6th of 2019, the infamous Jeffrey Epstein was arrested on the charge of sex trafficking of minors. On Saturday morning, August 10th he was found dead in his jail cell. His death brought even

more attention to his crimes and to the vast network of child sex trafficking and sex trafficking in general. Since these events, a flood of accusations and sordid stories have begun to emerge and continue to materialize on a regular basis. The number of sex trafficking arrests—including pedophile arrests—have shot through the roof since Trump’s inauguration on 1/20/2017. The numbers below speak of the justice that has been delivered worldwide as of this publication date—justice both to the guilty and for the innocent:

Arrest Events: Since Donald J. Trump took the helm of our country, a total of 2,315 sex-trafficking-related “Arrest Events” have taken place across the globe, the vast majority of which occurred in the United States. According to a report published at <https://qmap.pub/kids>, the number of people arrested in a singular “Arrest Event” has ranged anywhere from 1 to 2,300. The very first arrest under Trump’s presidency occurred on his Inauguration Day, 1/20/2017. On that day, three men were arrested in Louisiana for traveling with a minor to engage in sexual conduct. Some of the larger “Arrest Events” are as follows:

2.1 - 1/30/ 2017. 474 arrests were made in California and 56 “sex slaves” were freed.

2.2 - 2/7/2017. On this day, known as “National Super Bowl Sex Trafficking Sting Day,” 752 sex buyers and 29 pimps and traffickers were arrested across the country.

2.3 - 8/4/2017. In multiple states throughout the US, 1,020 arrests were made. Those arrested included law enforcement officials and clergy.

2.4 - 3/18/2018. In the UK, 1,300 pedophiles were arrested including 50 police officers.

2.5 - 6/12/2018. And in the mother of all sex trafficking roundups, 2,300 “child “sex offenders” were arrested under US “Operation Broken Heart.”

2.6 - Set Free: Since Donald J. Trump took the helm of our country, at least 7,684 “sex slaves” have been liberated, a large number of them, children.

Battle Front 3: Hollywood, Den of Iniquity:

Most Americans have heard of the disgraced Hollywood movie mogul, Harvey Weinstein. Within the last two years, the film producer has been accused of rape, sexual assault and sexual harassment by more than 90 different women, many of them successful Hollywood actresses. So, the Hollywood casting couch is real and Weinstein has become the proverbial poster boy. But is Weinstein just the tip of the sex-crimes iceberg in Hollywood? Let's have a look at a few stories.

3.1 - Steven Fabrizio, a top executive at the Motion Picture Association of America (MPAA) was arrested on charges of rape and blackmail. Click here for the story.

3.2 - Most of us have heard of the young actor named **Corey Haim** who died at the age of 38 from a drug overdose. Haim claimed that he was molested as a child in Hollywood. Click here for story.

3.3 - Corey Haim's good friend, **Corey Feldman** tells his own story of sexual abuse as a child actor in Hollywood here.

3.4 - Who can forget **McCauly Culkin**, that gifted young man who starred in *Home Alone*? He makes some rather bizarre charges here: <https://cutt.ly/ww3pb7X>

3.5 - And oh, look at this! **Kevin Spacey's** 2nd accuser turned up dead. Read about it here: <https://cutt.ly/pw3dmDr> Read about the untimely death of his first accuser, here: <https://cutt.ly/Rw3fsCq>

Battle Front 4: Disney. Sadly, even good old Walt is not who we thought he was. With roots and connections in the demonic Freemasons, “Uncle Walt,” the creative genius behind the Disney empire,

secretly worked hand-in-hand with his globalist allies in the New World Order (NWO) to advance their utopian agenda. Disney's “Tomorrowland” was seeded by conversations with science fiction author, H.G. Wells who according to the first article linked below, “conditioned the public to prepare for, and accept the stages of the New World Order.” But, over the course of the last several years, a trio of independent citizen journalists have been digging into reports of child abuse in Disney's “Wonderful World.” The trio, *Tiffany Fitzhenry*, *Liz Crokin* and *Corey Lynn*, investigating sex crimes at Disney, have helped unearth stories of the abuse and manipulation of young women by Disney execs. Below are some Disney sex crime stories the trio's hard work has helped bring into the light:

Battle Front 5: Impeachment. As of the date of this publication, The United States House of

Representatives has claimed to have opened an “Impeachment Inquiry” into President Donald J. Trump. Technically a House vote, which has not yet occurred, is required to officially open an “Inquiry.” The investigation, launched by the charges of an anonymous “whistleblower,” has been strengthened by a heavy push from the “Left” to impeach our president despite the fact that no evidence of any crime is present. U.S. House member, Al Green, has said that he is “concerned if we don’t impeach this president, he will get re-elected.” Is this a legitimate reason to impeach a president? Check out Green’s comments here: <https://cutt.ly/Kw6b47m>. Check out **Mission 8** in Q’s post # 836 dated March 3, 2018, and see ¶ 6.1 below for more information.

Battle Fronts 6: More Coming. The five battle fronts briefly explored above lay out the current American war zones with the greatest notoriety. But other, lesser known and poorly covered “crimes” await a full adjudication process. These unpunished criminal acts against the American people, acts which took place before the November 2016 election, portend future battle

fronts on the American horizon. Among them are...

6.1 - VP Biden’s Ukraine and China Dealings:

Unfolding in these last days of September is the story of former Vice President Joe Biden using the power of his office to intimidate the Ukrainian government into firing the prosecutor heading up an investigation into a Ukrainian energy company named Burisma. Biden’s son, Hunter, had recently been appointed as Burisma’s director. Another allegation against the Vice President involves an abuse of power in his dealings with China. Biden’s son, Hunter, was also involved in this story as well. Read about these stories, here:

6.2 - Open Secrets: Did Hillary Clinton intentionally leave classified information unprotected on her private server so that China could gain access to it? What did Hillary get in return? What has China done with the information? Does Ukraine have any role in this story? Did Obama know? Stay tuned...

6.3 - Benghazi: What really happened here? Why were U.S. military forces told not to engage? Was the Obama administration secretly sending weapons to our enemies? What kind of weapons? Was this a secret plot gone wrong followed by the story of a video followed by a massive cover up? An old story, yes, but how much of what really happened in Benghazi on 9/11/2011 has actually come to light? Stay tuned...

6.4 - Supreme Court Quid Pro Quo: What were Attorney General Loretta Lynch and President Clinton really talking about on the

tarmac in Arizona? Their grandchildren? Or did they cut some kind of deal? Did it have anything to do with the FBI investigation into Hillary's emails? What was AG Lynch promised in return? Did Obama know? Stay tuned...

6.5 - Uranium 1: What happened to 20% of America's uranium supply? Was it sold in secret? Who was it sold to? Who delivered samples to the rogue buyer? Was Canada involved? Does this story have anything to do with Robert Mueller's special counsel investigation? Was Obama aware of what was going on? Stay tuned...

6.6 - Unfettered Access: Did our U.S. intelligence community give unrestricted access to government contractors to search for and grab information from National Security Agency (NSA) files? If yes, why? Who brought this to light? What did the shutdown of these activities spawn? Did President Obama have any knowledge of this? Stay tuned...

6.7 - Americans Unmasked: What became of the NSA information obtained by the rogue contractors and intelligence people? Did U.S. officials look at private information about everyday American citizens? If yes, what was really behind all of this? What role did Obama play, if any? Stay tuned...

6.8 - Implications: If the six, question-laden stories presented above—stories of American battle fronts yet to be fully engaged upon—prove to be true, what are the implications? Do these not-yet-really-public scandals, stories yet to be brought into the full light of day, concern you? Has our country been hijacked? Stolen? Who's behind this? What is the motive? How did it happen? What is being done? Is it too late to turn things back? With all of these alleged crimes and criminals

(and there are many more not mentioned here), is it easier to understand why Donald J. Trump is such a threat to so many? How deep does this go?

BATTLE FRONTS SUMMARY: Currently two primary battle fronts are visible to most Americans.

1. Because of Robert Mueller's Special Counsel investigation of "Russian Collusion" and AG William Barr's announcement that he would be looking into the origins of this investigation, most Americans are familiar with the "Spygate" and "FISAgate" stories.

2. Also, the arrest and subsequent death of Jeffrey Epstein, coupled with the nefarious, sex-trafficking NXIVM criminals (see NO.1, August 2019), has awakened most Americans to the dark world of pedophilia and sex-trafficking on a very large scale.

While these two battle fronts are coming more clearly into view, the Joe and Hunter Biden Ukraine/China stories have begun to emerge publicly. As noted previously, other stories and crimes are still waiting in the wings to be brought onto the public stage at the right time. And let us not forget the "Impeachment Inquiry." Where will all of these indicators of deep corruption in our highest levels of governmental leadership take us? How many battle fronts will there be?

5. PAMPHLETEERS.

"From the sixteenth to the eighteenth century the pamphlet was the chief instrument to carry one's ideas to the public... The pamphlet, forerunner to the newspaper, was well adapted to this use because it was small and cheap and could reach a larger audience than the orator in the House of Commons."

Homer Calkin, 1940

✿ Understanding the Times ✿

In Revolutionary War times, many everyday citizens, passionate about liberty, entered into the arena of ideas about God, man and government. Weary of the oppressive means and methods of the British king and his army's occupation of their towns and cities, colonists stepped up, bravely publishing pamphlets to make their thoughts known to the public. Yearning for a preservation of the liberty they had come to treasure, they fought with their pens.

Times today are not a great deal different. Instead of paper pamphlets, we modern-day "pamphleteers" publish our discoveries, thoughts, fears, insights and warnings on blogs and social media platforms. If you will recall from publication No. 1, August 2019, it was Q who let us know that journalism is dead and that we, the people are now being called upon to dig and listen and research and ponder and reflect and bring the truth, the real news, to the people.
